Section I – Introduction

This is a Request for Proposal (RFP) for an organization to serve as the local grant sub-recipient for the planning, management and disbursal of Workforce Innovation and Opportunity Act (WIOA) funds to provide services to adults, dislocated workers, and youth; and other state and federal funds awarded to the LWDA. The successful bidder will receive, disburse, and account for said funding at the direction of the Local Workforce Development Board (LWDB). The successful bidder will prepare and submit all reports required by the Commonwealth of Kentucky and the LWDB and provide administrative and planning functions as required under WIOA Title 1, regulations, and state and local policies. The successful bidder will also assist the LWDB according to local policy.

According to WIOA § 107(d)(12)(B)(II), in order to assist in the administration of the grant funds, the chief elected official may designate an entity to serve as a local grant sub-recipient for such funds or as a local fiscal agent. In March, 2015, the Kentucky Workforce Investment Board (KWIB) issued an Inter-local Agreement policy that defines the procurement and designation of the Fiscal Agent or Local Grant Sub-recipient by stating that the Local Elected Official (LEO) Governing Board shall carry out a competitive procurement process conducted by the Department of Workforce Investment (DWI) for fiscal agent or local grant sub-recipient services including a Request for Proposals (RFP) that has been reviewed and approved by the DWI. Furthermore, the policy provides that proposals will be evaluated and ranked based upon criteria including but not limited to quality of services, demonstrated experience of quality service delivery, cost, conflict of interest policies, and history of fiscal integrity.

For the current PY15, the LWDB’s budget is approximately $ 1.6 million. The PY 14 carryover funds and PY 15 allocation and additional funds total $1,658,335.29. Allocations and carry-forward funds from the prior year have varied each year. The Board currently contracts with the Lincoln Trail Area Development District as the single Adult, Youth and Dislocated Worker program operator and the Career Center Services Provider. This entity will continue as the Career Center Services provider through June 30, 2016. The Career Center Operator is currently a consortium of agencies at each site. Career Center services will be procured prior to June 30, 2016. The successful provider will operate as of July 1, 2016.

The Board, in partnership with the CLEO, has responsibility for the planning and oversight of workforce development services under WIOA in eight west-central Kentucky counties. The Lincoln Trail Workforce Development Area (Area) is comprised of the following counties: Breckinridge, Grayson, Hardin, Larue, Marion, Meade, Nelson and Washington.

The intent of WIOA Title 1 is to provide training opportunities for residents that match the existing and future workforce needs of employers. The focus of service delivery is to provide eligible adults, dislocated workers and youth with access to career information, career assessment and, as needed, training and other career preparation that will increase opportunities for employment. Employer services include assistance with identifying individuals to fill job openings, re-employment of laid-off workers, and provision of other services and information to help employers recruit, retain, and develop their workforce.
The LEO Governing Board will maintain all proposals received in response to this RFP on file for at least three (3) years in the event negotiations with the selected organization cannot be finalized or in the event an organization is not able to perform. The LEO Governing Board reserves the right to reopen the RFP at any time.
Section II

A. Detailed Scope of Work

Definitions of Administrative and Programmatic Costs

The definition of administrative costs for programs can be found in the WIA regulations at 20 CFR 667.220. The definition is function-based; therefore, only the costs associated with performing the activities or functions listed in the regulations and ones that are not related to the direct provision of workforce investment services are considered to be administrative costs. Please note that the WIA is no longer in effect and the final regulations for WIOA have not been issued at this time and may differ once finalized. This CFR is to be used as reference only and the final WIOA regulations may differ.

Accounting, financial, cash management, budget activities, procurement, personnel payroll, property management, audit, and general legal services functions are administrative in nature, as are coordinating the resolution of findings arising from audits, reviews, investigations, and incident reports and developing systems and procedures, including information systems, required for these administrative functions.

Oversight and monitoring activities are classified depending on whether the activity being monitored is administrative or programmatic in nature.

The personnel costs associated with the project director and/or program manager positions etc. must be allocated between administrative and programmatic costs based on the activities performed by the individual(s). The cost of the project director/program manager’s time spent performing activities or supervising functions other than those listed in the WIA definition of administrative costs (e.g. accounting, payroll, procurement, etc.) would be considered program costs even though the individuals(s) performing these activities are part of the organization’s program management. Please note that the WIA is no longer in effect and the final regulations for WIOA have not been issued at this time and may differ once finalized. This is for reference only.

NPRM 683.215 (Please note that the final regulations have not been issued at this time and may differ once finalized) describes some activities that can be administrative, programmatic, or both, depending on whether the underlying functions which they support are classified as programmatic or administrative. The proposed rule is the same as the WIA regulation 20 CFR 667.220 with few exceptions. Please note that the WIA is no longer in effect and the final regulations for WIOA have not been issued at this time. This CFR is to be used as reference only and the final WIOA regulations may differ. These include costs of activities such as information systems development and operation, travel, and continuous improvement. For example the costs associated developing an information system which serves both administrative functions, and the tracking and monitoring of participants, would be allocated between program costs and administrative costs in proportion to the use of the system for each intended purpose.
Preparing program-level budgets and program plans are classified as program costs. The negotiation of MOUs and one-stop infrastructure agreements, and certifications of one-stop centers are also program costs, because they build or support the one-stop delivery system and services to participants.

1) Control of LWDB Funds

a. The local grant sub-recipient shall project cash needs and request cash to coincide with timely payment to LWDB contractors.

b. The local grant sub-recipient will receive and manage all funds in compliance with applicable state, federal, and LWDB policy and fund-specific regulations; and ensure internal controls to maintain fiscal integrity.

The OMB circulars are incorporated herein by reference and are further specified in program regulations at 29 CFR 95.27 and 29 CFR 97.22.

d. The local grant sub-recipient shall disburse funds based upon invoices reviewed and approved as designated by the LWDB.

f. The local grant sub-recipient will establish as necessary and maintain appropriate ledgers to manage obligations and expenditures of funds using accounting software that is documented equivalent or superior to the current software being used. h. The local grant sub-recipient will assist the Direct Service Provider and/or One-Stop Operator with the preparation of grant and contract budgets.

i. The local grant sub-recipient will provide local allocation, expenditure and budget spreadsheets for LWDB and Direct Service Provider and/or One-Stop Operator review on a monthly/year-to-date (YTD) basis.

5) Recovery/Reimbursement

b. The local grant sub-recipient shall reimburse the LWDB and/or Commonwealth for any funds paid to a contractor and subsequently disallowed, to the extent that such disallowed funds are recovered from the contractor.

c. The local grant sub-recipient will not be responsible for funds disallowed at the contractor level.

d. The local grant sub-recipient will be responsible for any theft or misappropriation of LWDA funds and is required to carry at its own cost commercial liability and a fidelity bond that meets LWDA requirements.

6) Sub-recipient Administrative & Program Functions

The definition of administrative costs for programs can be found in the WIA regulations at 20 CFR 667.220. The definition is function-based; therefore only the costs associated with performing the activities or functions listed in the regulations and ones that are not related to the direct provision of workforce investment services are considered to be administrative costs. Please note that the WIA is no longer in effect and the final regulations for WIOA have not been issued at this time and may differ once finalized. This CFR is to be used as reference only and the final WIOA regulations may differ.

Accounting, financial, cash management, budget activities, procurement, personnel payroll, property management, audit, and general legal services functions are administrative in nature, as are coordinating the resolution of findings arising from audits, reviews, investigations, and incident reports and developing systems and procedures, including information systems, required for these administrative functions.

Oversight and monitoring activities are classified depending on whether the activity being monitored is administrative or programmatic in nature.
The personnel costs associated with the project director and/or program manager positions etc. must be allocated between administrative and programmatic costs based on the activities performed by the individual(s). The cost of the project director/program manager’s time spent performing activities or supervising functions other than those listed in the WIA definition of administrative costs (e.g. accounting, payroll, procurement, etc.) would be considered program costs even though the individuals(s) performing these activities are part of the organization’s program management. Please note that the WIA is no longer in effect and the final regulations for WIOA have not been issued at this time and may differ once finalized. This is for reference only.

NPRM 683.215 (Please note that the final regulations have not been issued at this time and may differ once finalized). describes some activities that can be administrative, programmatic, or both, depending on whether the underlying functions which they support are classified as programmatic or administrative. The proposed rule is the same as the WIA regulation 20 CFR 667.220 with few exceptions. These include costs of activities such as information systems development and operation, travel, and continuous improvement. Preparing program-level budgets and program plans are classified as program costs. The negotiation of MOUs and one-stop infrastructure agreements, and certifications of one-stop centers are also program costs, because they build or support the one-stop delivery system and services to participants.
